

## Courses: May – December 2010

**Dtalk** is an exciting programme of training and learning, supported by Irish Aid, for development workers in Irish registered NGO and missionary organizations. The courses are highly subsidized by Irish Aid (up to 80% of the course cost). A user fee will be charged to cover the remaining 20%, which covers the cost of materials, tea/coffee and lunch. The programme is managed by a consortium of organizations led by the Kimmage Development Studies Centre (KDSC), Dublin. The other members of the consortium are International NGO Training and research Centre (INTRAC), UK and Management for Development Foundation (MDF), The Netherlands.
